Grade Level: 4

Language: English

Topic/unit/core selection: math, square numbers, exponents

Chant Title and Author: Big Numbers Rap by Mary Brown

I'm a mathematician and here to say
I use big numbers everyday!
When I need to know how many,
When I have to find how much,
Big numbers help me keep in touch!

Two times two equals four,
But when you square any number, it becomes much more!
 $4 \times 4 =$ sixteen, but 20 squared is 400 (see what I mean?)
Exponents make numbers much bigger
Little number up above tells us how to figure!

I'm a mathematician and here to say
I write big numbers everyday!
I use place value patterns to show,
really big numbers with lots of zeros!
